

## **Meeting the 13. January 2012 in FRDK – Come and listen:**

- Carbon, Soil fertility, Strip tillage, No-till
- Drills for conservation tillage – how is the trend?
- What does it mean for the economy in the plant production?
- What does the plant tell and what is realistic under Danish conditions?

**Place: Advisory Centre: Gefion, Fulbyvej 15 – DK-4180 Sorø -**

- 9.30-9.45 **Welcome, presentation of the program. Coffee**  
v. **Bente Andersen**
- 09.45–11.30 **Carbon in the soil and soil fertility**  
The importance of carbon on food supply, soil fertility, climate changes, rotations, earthworms, strip tillage and no till.  
**Don C. Reicosky, North Central Soil Conservation Research laboratory Morris, USA.**  
**Indlægget bliver oversat af planteavlskonsulent Jacob W. Nymand, LRØ**
- 11.30–12.00 **Panel discussion: What is possible under Danish conditions?**  
Søren Ilsøe, Hans Dahm og Don Reicosky
- 12.00-12.45 **Lunch**
- 12.45-13.10 **Different drill types in Northern Europe.**  
In what direction are we moving?  
By advisor in machinery **Karl Jørgen Nielsen KN- maskinrådgivning**
- 13.10-13.35 **What is the cost when comparing Mulch tillage /Direct tilling and traditional tilling in machinery and working costs. Is there a difference when comparing systems with tines and discs?**  
**Advisor in machinery Christian Rabølle, Gefion**
- 13.35-14.15 **Yields in a system with no ploughing. What do the trials tell?**  
Knowledge from Germany and from Søren Ilsøes own farm.  
**Advisor Bente Andersen og farmer Søren Ilsøe**
- 14.15-14.30 **Coffee break**

- 14.30–14.45 **That is how we see the trend in machinery development for conservation tillage in Denmark ved Tommy Overby, Kongskilde**
- 14.45-15.00 **That is how we see the trend in machinery development for conservation tillage in Denmark ved Christian Holst, Väderstad**
- 15.00-15.15 **That is how we see the trend in machinery development for conservation tillage in Denmark ved Orla Nielsen, VMSåmaskiner**
- 15.15-15.45 **Discussion panel: What will be the trend in conservation tillage the next 5 years?**  
Paneldeltagere: Karl Jørgen Nielsen, Christian Råbølle, Tommy Overby, Christian Holst og Orla Nielsen.
- 15.45-16.00 **Following up and conclusions. Bente Andersen**

If you are interested in participating you must answer the latest Tuesday the 3.January
